

## s1220 Photo Scanning System

Now Retailers can find new profits in their customers' old photos.

### Eliminates labor-intensive manual feeding

This versatile countertop system enables you to digitize hundreds of photos (as well as postcards and other memorabilia) in minutes.

### Take control

The Kodak s1220 Photo Scanning System gives you all the control you need to preserve and enhance customers' precious memories. The application software allows you to:

- Create JPEG files at 300, 600, or 1200 dpi
- Easily fix common problems on individual photos (red eye removal) or on every photo in a group (brightness adjustment and color correction)
- Rotate photos clockwise or counter-clockwise
- Scan one side - or both sides in one pass to capture information written on the back of photos or postcards
- Continuously feed photos while a batch is scanning

Additionally, an optional A4-size flatbed scanner can handle oversized, mounted, bound or fragile photos.

### Outstanding Features and Benefits

The Kodak s1220 Photo Scanning System - a fast, easy way to digitize photos
