

Unibind® PhotoBooks

...the complete
photobook
binding solution

Offer your customers a professional photo book service!

The UNIBIND Pre PhotoBook system, now available from C-Direct, is simple to use, produces a professional finish and is competitively priced.

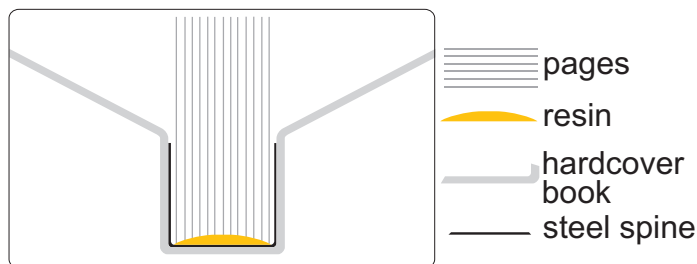

The Resin SteelBinding system binds documents or photobooks without any effort in no time.

Simply assemble your printed pages in the Unibind cover and place into the Book Creator. The heating compartment starts up automatically, needs no warm-up and can bind several books simultaneously.

The steel spine at the back of the cover allows the paper edges to completely sink into the heated resin.

The result is super-strong, permanent binding. All binders are maintenance-free.

Formats	Spine size (mm)	Ebony	Black Line	Aluminium	Pearl White
A5+ Landscape	3, 5	✓		✓	✓
A4+ Landscape	3, 5, 7, 9	✓		✓	✓
