Powered to Enjoy Life

Equipped with a large 3000mAh (typical value) high-density polymer battery, the HUAWEI Y5 2017 has enough power to perform through a whopping 1.5 days on a single charge, and, even after 800 charges the battery capacity retention rate is still over 80% so you don't have to worry about replacing the battery over the device's lifetime.

And its smart power-saving technology lets you enjoy your smart phone for even longer.

RRP:

\$199
